

December 1, 2011

"The Niagara Unit of the Canadian Cancer Society is excited to partner with Kamatovic Orthodontics on the Think Strata-Guard Pink program. The partnership with The Professional Hockey Players' Association (PHPA), and the dental community is a great fit with the mission of the Canadian Cancer Society. Dental health has been linked to cancer prevention and early detection and physical activities like hockey are important aspects of living a healthy lifestyle that help to reduce the risk of developing cancer. Funds raised through this program will support life-saving research funded by the society that will benefit people in our community affected by cancer."

Sincerely,

Angela Daley
